A Collaboration of Visionaries

The event is a collaborative effort spearheaded by three major projects: Skills2Capabilities, iRead4Skills, and MEGASKILLS. Each project brings a unique perspective and expertise to the table, collectively laying a solid foundation for addressing Europe's evolving labor market needs:

Skills2Capabilities focuses on enhancing skills systems to facilitate smooth labor market transitions, aiming to reduce skill mismatches and prepare the workforce for future demands.

iRead4Skills champions enhanced literacy and integrates essential skills across professional contexts, improving overall competency and adaptability.

MEGASKILLS tackles the development and evaluation of soft skills, vital for effective workforce engagement and productivity.

Why Attend the Skills Horizons Event?

This event is more than just a conference; it's a strategic convergence where theory meets

practice, where data drives innovation, and where attendees can gain firsthand experience of the advancements shaping Europe’s educational and vocational landscapes. Here’s what you can expect:

Insightful Presentations: Learn about the latest research findings and methodologies from leading experts.

Interactive Discussions: Engage in meaningful conversations with innovators and industry peers.

Networking Opportunities: Connect with professionals and experts committed to advancing skills and capabilities.

The Skills Horizons event offers a unique platform to explore how these projects contribute to the advancement of the European labor market. It’s an essential gathering for policymakers, educators, industry leaders, and anyone passionate about the future of work and education.

Mark your calendars and be part of this momentous event. Together, we can navigate and shape the future of skills development in Europe.
